Marketing credit amounts based on production are subject to change based on changes to commission schedules, product specifications and contracting levels. All marketing credits are credited to Clark Street Printing & Design on your behalf and are to be used for your printing and design needs. Marketing credits can be redeemed for cash only if over \$1 million in premium has been written. If you elect a cash payout, credits will be paid out at a discounted value and reported to the IRS as taxable income. Marketing credit balances less than \$4,000 cannot be redeemed. The bonus marketing credit schedule based on production resets December 31st of each year. Based on production, you may qualify for increased commissions through higher contracting levels in lieu of marketing credits or other promotions. To redeem marketing credits, you must be in good standing with Billion Dollar Mentoring. Marketing credits may be forfeited if your total premium production falls below \$250,000 in a full calendar year.
